

# 2020 Virtual Week of Caring

## Tuesday: Praise a Community Worker

**Our community workers are our local heroes. Our nonprofit employees, school district staffs, county and healthcare workers, and first responders have always been the heart and soul of our communities, but during these recent months they have shown us all their incredible capacity for constant change and never-ending ability and desire to help others.**

**Today, your mission is to pick someone (or 10 someones!) who have been committed to keeping our communities healthy, safe and strong and praise them! It can be ANY kind gesture to remind them they are appreciated.**

- Send them a thank you card
- Create a positive post about them on social media
- Drop off a delicious snack to them at work
- Write a note through our [contact page](#) and we'll distribute it on your behalf
