

United Way Grant Applicants,

United Way Jefferson &  
North Walworth Counties

Although the impact may not be at the same level as this time last year, we think it's still important to capture the effect that COVID has had on your organization. Please complete this questionnaire as part of your grant application so we can better understand your programmatic challenges and any unique circumstances your organization has encountered this year because of COVID.

Your responses to these questions will help our community investment grant review teams and our board of directors better understand the changes your organization has experienced this year as it relates to financial stability, staffing, program delivery, outcome measurements, etc.

Please attach this form as a pdf under "Section 11 – Attachments" of your online United Way grant application. Answers should be typed.

<b>Agency Name:</b>	
---------------------	--

<b>1. What changes, if any, has your organization made over the past two years (to account for COVID) that you have seen have a positive impact on your clients?</b>

<b>2. What amplified needs has your organization seen during COVID (both for your clients and for your organization)? Do you feel your organization is equipped to meet those needs?</b>

<b>3. Did your organization experience a loss in revenue and/or unplanned increase in expense during 2021 because of COVID? If so, please detail that information below. Please also note any planned losses/increased expenses for 2022.</b>

**4. What long-term changes is your organization looking at making (or has made already) to account for the COVID impact on your clients and your organization?**

**5. We understand that agencies and programs are continuing to face unique challenges this year. Please share any additional specific information you would like us to know as we consider your grant application. Please feel free to also share any meaningful stories or positive changes that have impacted your organization and your clients during this time.**
